Transition Tasters

To help you arrive to school on time, it would be good to start to plan your morning routine.

Using the timed schedule below, write down what you need to do by when so that you are at school by 8:20. Remember to think about time for eating breakfast, washing your teeth, checking your uniform, having your bag packed, checking you have all your equipment for the day and so on. It may be worth doing some of these things the night before so you have more time in the morning, especially if you have to use public transport.
