GCSE Business

Investigating Small Business

Theme 1 concentrates on the key business concepts, issues and skills involved in starting and running a small business. It provides a framework for you to explore core concepts through the lens of an entrepreneur setting up a business.

This theme will challenge you to apply a range of quantitative skills relevant to business contexts. This includes calculations and the interpretation, use and the limitations of quantitative and qualitative data.

GCSE Business

Building a Business–

Theme 2 examines how a business develops beyond the start-up phase. It focuses on the key business concepts, issues and decisions used to grow a business, with emphasis on aspects of marketing, operations, finance and human resources. Theme 2 also considers the impact of the wider world on the decisions a business makes as it grows.

You will develop an understanding of the interdependent nature of business activity through interactions between business operations, finance, marketing and human resources, as well as the relationship between the business and the environment in which it operates.
