Child Development

Subject Information

The qualification is called the NCFE CACHE Level 1/2 Technical Award in Child Development and Care in the Early Years.

There is one exam worth 50% of the final mark and a non-exam assessment which is externally set but internally marked worth 50% of the final mark.

The qualification grades range from L1P to L2D*.

Child Development

The exam at the end of year 11 assesses knowledge and understanding of all 9 components.

The NEA consists of a case study set by the exam board with a series of tasks to complete.

Child Development

An example of the NEA

Project Brief - Case study

John is 4 years old. John's parents have recently separated, and John is living with his mother Jane.

John and Jane have moved to a rural area from a city environment and have no extended family or contact with John's father.

Before the separation of his parents John was looked after during the day by a nanny but now John will attend a nursery whilst Jane works full time, shift work, starting at 7.00am.

John has started the transition to the nursery and has been attending for 2 weeks. The childcare practitioner notices John is showing signs of regression and is finding it difficult to independently complete self-care routines.

The childcare practitioners have observed John during routines and play activities and recorded their findings in a post-it note observation method. The findings can be found in Appendix 1.

Using this case study and the post-it note observations in Appendix 1, complete the following tasks.

@Socialscience_SHS

www.Shoeburyness.secat.co.uk

Child Development

An example of the NEA

Task 1:

Consider the strategies that could support John's transition to the nursery and complete the following:

- create a leaflet to share with John's parent(s) that gives advice on how the parent(s) and the early years practitioners could support his transition to nursery
- in a written report- justify how the strategies given in your resource will support John's transition.

Task 2

Use the post-it note observation document (Appendix 1) to assess aspects of John's holistic development.

Write a report of your findings regarding aspects of John's holistic development including:

- John's progress against expected key milestones
- how aspects of John's holistic development might be interconnected
- justifications for the support needed to further his development.
