Careers & Higher Education

As well as a degree in Geography, there are many other courses that require a good knowledge of Geography. Banking, economics, media and politics welcome Geographers because of the skills they have.

"The study of geography is about more than just memorizing places on a map. It's about understanding the complexity of our world, appreciating the diversity of cultures that exists across continents. And in the end, it's about using all that knowledge to help bridge divides and bring people together'.

Barack Obama
